Member
DSC (Google Developer Student Club)
Developer Student Clubs are university based community groups for students interested in Google developer technologies.

ABOUT ME

I'm a very serious and hard-worker first year student at EPITECH Barcelona.
Here we don't only learn how to code ... We learn how to learn !
The special pedagogy of this school is a main asset. It permits me to love learning new things and gives me a particular ability to learn new things very quickly.
So for the moment I'm fluent in C because I work for up to 60 hours per week in C and also in python since i did many projects with it. But I'm motivated to learn new languages and improve my skills.

SKILLS

C Python HTML/CSS Git

Linux Mac OS VScode Teams

PowerPoint
